

Michigan Interscholastic Swim Coaches Association

EST. 1954

Dear MISCA Members,

November 21, 2020

While we are all disappointed in the untimely pause in our girls' season and delay in our boys, we truly believe we have a hand in making sure this is only a pause.

MISCA would like to support all of our coaches by sending the same message to our swim families. Social gatherings of our student-athletes and families are some of the highest risk settings for the spread of COVID.

With that in mind it is imperative that we ask our swim families to do their part to stop the spread of this virus. We understand that especially during this time of year, social gatherings, team dinners and parties are memorable moments for our teams and families. We also understand that if we want to finish the girls season and begin the boys, it is important that we do our part and avoid these situations.

In addition to limiting social gatherings during these next three weeks, our programs should be following the Michigan Department of Health and Human Services emergency order. We should not be attempting to train and workout as a team. Any attempts to circumvent the rules set forth by the MDHHS and MHSAA is just another opportunity to set us back.

MISCA is working closely with the MHSAA during this time. Please know that it is our goals to help ensure the safety and well being of our athletes and coaches as we work on a plan to get back in the water.

We feel it is important to stay in communication with our members, as well as answer any questions you may have about the current situation. Please feel free to reach out to any of our executive members with concerns or questions. Together we will get through this.

Stay safe,

MISCA Executive Board
